

# Horror And Torture

## Torture Squad

Hear my call e come to me  
Gathering lives is just my ecstasy  
Hidden in the shadows I'm watching you  
Like a fly to a spider I'm gonna get you

Horror and torture  
See me coming to your side  
Horror and torture  
Coming through the darkest night  
Horror and torture

Let me take you down to hell  
I'll make you burn 'till you cannot yell  
Inside my world there's no place to be  
Death is just a good thing to me

Horror and torture  
See me coming to your side  
Horror and torture  
Coming through the darkest night  
Horror and torture  
You never gonna find a place: to hide (bis)
