

Guns and Roses

Tory Lanez

What if I told you
You're like the bullet to my holster
Dangerous but I wanna hold you baby
You're there when I go through the motions
What if I told you
I could sling you off of my shoulder
Just like a shotgun to a soldier
I bought you all these Guns and Roses

And baby, don't hold nothing back from me
I will hold your guns and roses

She shot me right down
She shot me right away
She shot me right down
She shot me right away

What if I told you
When we make love its like war is going on
Don't leave me wounded in this battlefield
This fight for love, is for sure the prologue
What if I told you
You're my morning cup of Folger's
Would you stick me with this steep baby
Only by guns and roses

Don't hold nothing back from me
I will hold your guns and roses

She shot me right down
She shot me right away
She shot me right down
She shot me right away

Don't hold
(she shot me right away)
Nothing back from me
(she shot me right away)
I will hold
(she shot me right away)
Your guns and roses

Don't leave me alone baby
Shot me now I'm down ooh, wee
Don't leave me alone baby
I'm alone and I need another round
Don't leave me alone baby
Shot me now I'm down ooh, wee
Don't leave me alone baby
I'm alone and I need another round
