

Beautiful To Me

Toše Proeski

I know that it's alright
I have you by my side again
You make me feel so fine
With the sunshine through the rain

Let it go, let it flow
From the river to the sea
You and me, I believe
This is a moment meant to be

We're gonna get higher than the moon
And fly above the stars
And nothing will bring us back too soon
Let's fly together

nothing's gonna stop
what's coming through
I love the way it feels
when I'm with you
God only knows where I would be,
You're beautiful to me

You know it feel so good
Ever since the day I found you
Your smile is like the sun
I wanna wrap the world around you

Let it go, let it flow
Baby set the feeling free
You and me, I believe
This is a moment meant to be

We're gonna get higher than the moon
And fly above the stars
I know that it's gonna be so right
Let's fly together

nothing's gonna stop
what's coming through
I love the way it feels
when I'm with you
God only knows where I would be,
You're beautiful to me

And God only knows where I would be,
You're beautiful to me
