

# Forever In A Day

Toše Proeski

Do you feel like starting over  
breaking from these chains  
leaving all your yesterdays and moving on again

do you wanna see a sunrise  
rising from the dark  
and go a thousand miles  
to find the way back to the start

and make me live forever  
never let me go  
yesterday is over  
we just need to find another way

feel everything inside  
let the moment come alive  
no looking back, just let it go  
help me find a way  
turn the night into the day  
don't let it slip away  
live forever in a day

I can feel it rising stronger  
in my heart again  
gonna take my chances now and let the light shine in

and live as if forever  
was only for today  
the story's starting over  
we just need to find another way

feel everything inside  
let the moment  
no looking back just let it go  
help me find a way  
turn the night into the day  
don't let it slip away  
live forever in a day

oh and I won't look back  
when all the days are gone  
and there will be no sorrow  
for all my races run  
if I truly love the moment in the sun  
don't let it slip away  
leave forever in a day
