

Complete Control

Total Chaos

No time to be wasted
Hangin' 'round with you
I've got better things to shoot for
And little time to do
Can't you see I've got it
With no help from you
I've turned around, knocked you down
and burned the bridge from you

I want control
I've got to get control
with no regrets, naturally
I want complete control

Oh changes will be made
To keep control for good
I'll change the whole world
And everything around you
I don't need no help
And nothing from you
I'll get everything I want
You know it will be true

Complete control
