

Crowd Control

Total Chaos

You really piss me off
Every time I open my eyes
I see that our government
Is just an enemy in disguise
They take away the rights
From those they feel aren't deserving
We're only blinded by their games
They are planning and reserving

It's just a crowd control
It will take it's toll

Telling us the things
They want us to hear
Day by day
We're living in silent fear
Running our lives
Like it's just a game
Nothing's gonna change
It'll always be the same
