

# I Don't Wanna

Total

If you're ever to leave me  
How could I breathe, how could I ever go on?  
If you're not here beside me  
Then what good would my life be?

This life won't mean a thing  
If you're not around and don't you know that  
If I lose you there'll be no joy to be found  
This world won't show a thing to me

I don't wanna smile, if you're not smiling with me  
I don't wanna laugh, if you're not there  
To share the laughter with me

I don't wanna live without you  
What kind of life would that be?  
Oh baby, oh baby, I don't wanna smile  
If you're not smiling with me

If there's ever a moment, when you're not there  
Sharing these moments with me  
It would be such a sad song  
It would all just be all wrong

The stars won't shine as bright  
If you walk away and don't you know that  
There'll be no reason to wake up everyday  
This world won't mean a thing to me

I don't wanna smile, if you're not smiling with me  
I don't wanna laugh, if you're not there  
To share the laughter with me

I don't wanna live without you  
What kind of life would that be?  
Oh baby, oh baby, I don't wanna smile  
If you're not smiling with me

I don't wanna see the sunrise, if I can't see it with you  
I just know that there will be no joy  
In anything I do, this world will be too sad for me

I don't wanna smile, if you're not smiling with me  
I don't wanna laugh, if you're not there  
To share the laughter with me

I don't wanna live without you  
What kind of life would that be?  
Oh baby, oh baby, I don't wanna smile  
If you're not smiling with me
