

Garden

Totally Enormous Extinct Dinosaurs

Looking over your shoulder, girl
Thinking, you should have, let me have it all
If you're coming around again
Tell me, how you feel
Cause I need to know

I could be your love again
If you just let me in
We don't have to work it out
Cause I already know

Looking over your shoulder, girl
Thinking, you should have, let me have it all
If you're coming around again
Tell me, how you feel
Cause I need to know

I could be your love again
If you just let me in
We don't have to work it out
Cause I already know

Walking in my silver blues,
Trapped in dust, to you
I believed in something too
One more life with you
