

Trouble

Totally Enormous Extinct Dinosaurs

Come and dance beside me, let you go
Try and stop me telling all these lies
Trouble with the only thing I know
I can see the games are lost in your eyes

Now you got me messed up please believe me
Looks like messed that you mean all believe me now
You make me happy
I'm in trouble now

Something tells me this won't go away
Take me home and put me out of sight
Trouble is the order of the day
For the record look I'm wrong you're right

Now you got me messed up please believe me
Looks like messed that you mean all believe me now
You make me happy
I'm in trouble now

Now you got me messed up please believe me
Looks like messed that you mean all believe me now.
You make me happy
I'm in trouble now
