

## Anything

Totalselfhatred

Was there something i didn't say  
Was there anything undone  
I saw you drown but i couldn't help  
Lost it all, saved myself

Just wanted you to stay  
Pieces of you left behind  
Didn't i want you to leave  
A hurtful trail of memories  
Just wanted you to be  
What leads to your remains  
Here with me  
Not a sign of what you used to be

Why?  
Miksi sirpaleet lankeavat rakkaitteni edessä?

Why?  
Miksi kätensä torjuvat, työntävät kauemmas?

Menneisyytesi irvikuva kasvotusten kanssani  
Avuttomana, huurtuvat lasin takana

Vaikka haluaisin silittää hiuksiasi  
Etäännyn ja käännän selkäni

Break the silence in me  
Take the sorrow from me

Why?  
Miksi sirpaleet lankeavat rakkaitteni edessä?

Why?  
Miksi kätensä torjuvat, työntävät kauemmas?

Please don't strip that mask off  
I don't want to see the wicked truth  
Let it be  
Leave me my illusion  
Nail it to the bone
