

# At War With Myself

Totalselfhatred

At war with myself  
Mieleni ainainen sotatanner  
Once again in this hell  
Ristitilessä raunioina

At war with myself  
Riutuneet kädet kaivavat  
Fuckin war in my head  
Hedelmätönä maaperää

On my knees, shattered  
Waiting for the fury to settle  
To find the haven in this madness  
And see the storm to calm

Tired... Empathy my torturer  
Only choice whom i'll hurt this time

Torture, empathy, a hurtful choice  
Nourishing my true self  
Altruistic deprivation

Inside your hearts rest my past  
Which kneels to my regrets

Through all the chaos, in the middle of silence  
All the burial pits, shelters of my shadow  
To perish into nothingness  
Through the veils of life and death...

Frei...  
Puhdistuneena erillisenä kaikesta  
In die Unendlichkeit...  
Katson universumiani keskellä aikaa

Im selben Moment wie es mir das herj jerschneidet  
Neues Glück erwacht...  
In mir aus der Asche der Vergangenheit

Ei saastainen sielu enää ryömi  
Befreit...  
Ulos onnettomasta ruumiista
