

## Home of the Brave

Toto

Everything's gonna be alright boys  
Help is on the way  
Hold your head up high now  
There's no need to cry now  
We're not running anymore  
Leave the politics behind boys  
They're not working anymore  
There's so much more at stake here  
It's make or break here  
Haven't we been here before  
Tell me what we're waiting for  
You gotta remember  
You don't have to be afraid  
You still have the freedom to learn  
And say what you wanna say  
You gotta remember  
Don't let 'em take away  
The land we call the home of the brave  
Who sings the song of the people  
You don't hear it anymore  
I heard it late last summer  
To the beat of a different drummer  
It never sounded quite like this before  
So you're trying to shake this feeling  
That trouble's right outside the door  
You lie awake each dark night  
Like a time bomb wound up too tight  
A storm in waiting just offshore  
Tell me what we're waiting for  
You gotta remember  
You don't have to be afraid  
You still have the freedom to learn  
And say what you wanna say  
You gotta remember  
Don't let 'em take away  
The land we call the home of the brave  
You gotta remember  
You don't have to be afraid  
You still have the freedom to learn  
And say what you wanna say  
You gotta remember  
Don't let 'em take away  
The land we call the home of the brave  
[repeats 2x]
