

How Does It Feel

Toto

Morning's here
I feel so far away
It seems like I felt this before
All alone
Sun burns my skin
I can't live with pain anymore
And with you on my mind
Thinking of all that we've said
Were they just words
We'll live to regret
Why won't you stay?
How does it feel
To make me fall apart
Could this be love
Or just a broken heart
How do you feel
When you see me cryin' again
Times have changed
Is love at an end?
What makes us wonder why?
Rearranged
Just pretend
I can't stand the thought of goodbyes
And with you on my mind
Thinking of all that we've said
Were they just words
We'll live to regret
Why won't you stay?
[Repeat chorus]
