Lea

Here's to the few. Who fared - my love Only for you-I cared-my love I've given it hope, and I know it's only you Encased in silence Here's to the you-who saved-my love Only to you-I gave-my love I've given it thought, and it's not all that appears Lea, how long will you still want me to want you In and around you Lea-my concertina Will you still want me to want you Here's to the you-who dared-my love Only with you-I shared-my love I've given it though, and it's not all that appears So I'm asking Lea, how long will you still want me to want you In and around you Lea-my concertina Will you still want me to want you Who cares-what the cynics say I care-if only you're on your way Lea-don't let the same be true Lea-do you still want me to want you [repeat out]
