

Lovers in the Night

Toto

It's just the soul that matters, and I don't know why
You know she's gonna make you cry, you know she's gonna make yo
u cry
She'll have you walk beneath the ladder you were meant to climb
You know she's gonna make you try, you know she's gonna make yo
u try
Ooh, you know we're lovers in the night
Ooh, you know we're lovers in the night
It's just the soul that matters, and keeps her satisfied
You know she's gonna make you cry, you know she's gonna make yo
u cry
She'll have you wishin' that you had her come your way to shine
You know she's gonna make you try, ooh, you know she's gonna ma
ke you high
It's just the soul that matters, and keeps her satisfied
You know she's gonna make you cry, you know she's gonna make yo
u cry
She'll have you wishin' that you had her come your way to shine
You know she's
Oh, you know we're lovers in the night
