

# Mysterious Ways

Toto

I must have aged twenty years in the last seven days  
Living on emotion, disbelieve and rage  
I found out the hard way life is what you make  
Sometimes you gotta learn to give yourself a break

You can go where you wanna go  
You can know who you want to know  
Take a good look inside you'll see  
You can have it all  
If you just believe

Time moves in mysterious ways  
You're dancing to the music while the music plays  
Accelerates and then delays  
Time moves in mysterious ways

Accidents can happen and they always do  
It only takes a twist of fate to turn on you  
I was in the wrong place at just right time  
I thought she was a lover not a friend of mine

You can do who you wanna do  
You can screw who you want to screw  
In the end it's the fantasy  
But not reality  
That will set you free

Accidents can happen and they always do  
It only takes a twist of fate to turn on you  
I was in the wrong place at just right time  
I thought she was a lover not a friend of mine

Once it's inside of me  
It's like a symphony  
On a cloud and I can't come down  
It's like a dream then you come around

You can go where you wanna go  
You can know who you want to know  
Take a good look inside you'll see  
You can have it all if you just believe

Accidents can happen and they always do  
It only takes a twist of fate to turn on you  
I was in the wrong place at just right time  
I thought she was a lover not a friend of mine

Time moves in mysterious ways  
You're dancing to the music while the music plays  
Accelerates and then delays  
Time moves in mysterious  
Time moves in mysterious  
Time moves in mysterious ways
