On the Run

Toto

Everybody's moving way too fast
Before you blink you better find out who's in your path
The pressure's building up on every side
In my heart I know that I've got nothing to hide
What would make you think that you're the only one
Now I know my troubles have just begun
I'm on the run and nobody's stopping me
I'm on the run and there's nobody left on my side
I'm on the run and I know you're watching me
There's not enough time to decide
You never know what the night could bring
Every moment all the angels begin to sing
Why the worry – just to save your pride
With all the answers buried so deep inside
It doesn't take a crystal ball to see the truth
It's gonna take a miracle to see this thing through
Chorus:
I'm on the run and nobody's stopping me
I'm on the run and there's nobody left on my side
I'm on the run and I know you're watching me
I'm on the run and you can't say that I haven't tried
I'm on the run and nobody's stopping me
I'm on the run and there's nobody left on my side
I'm on the run and I know you're watching me
There's not enough time to decide
