Without Your Love

It's late at night, nothin's feelin' right Since you've gone away I think I know why you left this time, But it's still hard to say I nearly lost it, when he came around you Now I'm holdin' it all inside and it's killin' me We used to meet at an old cafe in Chi-Town At first you could hear the wind stop, Then my heart would pound I remember everything you used to do, girl Now I'm learning something that you already knew It's not the same without your love Every night and every day, girl It's not the same without your love You don't have to be afraid It's not the same without your love Every night and every day, girl It's not the same without your love I saw you through the door, with your motor runnin' I can still hear the sound I knew then, when you asked him in, you let your guard down You're talking soft, don't tell me, I know you're sincere I just called to tell you that I'm the only one here It's not the same without your love Every night and every day, girl It's not the same without your love You don't have to be afraid It's not the same without your love Every night and every day, girl It's not the same without your love It's not the same without your love Oh, every night and every day, girl It's not the same without your love You don't have to be that way It's not the same without your love We can stop to find a way It's not the same without your love It's not the same without your love Every night, every day, every night It's not the same without your love It's not the same without your love It's not the same without your love
