

Distant Lands (Act II - Apocalypse)

Touch of Eternity

Combine me with my soul
So for once I can breathe
Silence, play your melody
Hush away the burning flames

It's apocalypse
No one's gonna make it
Stars blazing in fire
No need to fight it
It's apocalypse
Mountains crashing
Deep blue seas drying out
We weren't gonna make it

Play again your melody
Thus fill our hearts again
Distant shores, embrace me waves
End this apocalypse

It's apocalypse
No one's gonna make it
Stars blazing in fire
No need to fight it
It's apocalypse
Mountains crashing
Deep blue seas drying out
We weren't gonna make it
