## **Onward to Freedom**

## **Tourniquet**

Those without a voice
The ones who have no choice
We as humans holding all the cards
Bearing this in mind
Is it too much to be kind
All inclusive in our world of caring

Onward to freedom

Compassion is what I give to you

And mercy within me

Is what I show to you

Held within our hand
An idea that's so grand
Written in his word it's plain to see
Help to all the weak
And the ones who cannot speak
A song for them is waiting to be sung

Onward to freedom

Compassion is what I give to you

And mercy within me

Is what I show to you

And mercy within me

Is what I show to you

Write your song to them Within your own heart Reach your hand out to them Set yourself apart

Set your mind to help them
No it won't cost a thing
Caring is easy
When it comes from the heart

Onward to freedom

Compassion is what I give to you

And mercy within me

Is what I show to you
