

# Not on Drugs

Tove Lo

Shiny, have you seen my world in new colours?  
How you fire from a rocket in the universe?  
I'm up on the sky and the dream's so blue  
I live in the sky  
You come live here too  
I'm queen of the clouds  
Make my wish come true  
I sing to the night  
Let me sing to you

Oh, baby, listen please  
I'm not on drugs  
I'm not on drugs  
I'm just in love

Baby don't you see  
I'm not on drugs  
I'm not on drugs  
I'm just in love  
You're high enough for me

Light brighter, pick the biggest stars of mine  
And I'm trip, trip, tripping in my empire state of mine

I'm up on the sky and the dream's so blue  
I live in the sky  
You come live here too  
I'm queen of the clouds  
Make my wish come true  
I sing to the night  
Let me sing to you

Oh, baby, listen please  
I'm not on drugs  
I'm not on drugs  
I'm just in love

Baby don't you see  
I'm not on drugs  
I'm not on drugs  
I'm just in love  
You're high enough for me

You're high enough for me  
Baby, listen please  
I'm not on drugs  
I'm not on drugs  
I'm just in love

Baby don't you see  
I'm not on drugs  
I'm not on drugs  
I'm just in love  
You're high enough for me  
You're high enough for me
