

The Way That I Am

Tove Lo

So you're proud to be a good one
But the good ones always complain
About the stuff they never did
Don't make a think about the bad kind
'Cause the bad kind don't even know
All the hearts they're messing with

You can point fingers so you won't
I don't care
I love you anyway
You can point fingers so you won't
I don't care
I love you anyway
Yeah I'm falling in love and I hope that you want me
The way that I am
Falling in love and I know I can change me
Do you understand?
Falling in love and I hope that you want me
The way that I am
Falling in love and I know I can change me
Do you understand?

I've been told I am the problem
And the problem's my honesty
When it's worse than how it seems
And I tell you all the wrong things
All the things you don't wanna hear
Because they change your perfect dream

You can point fingers so you won't
I don't care
I love you anyway
You can point fingers so you won't
I don't care
I love you anyway
Yeah I'm falling in love and I hope that you want me
The way that I am
Falling in love and I know I can change me
Do you understand?
Falling in love and I hope that you want me
The way that I am
Falling in love and I know I can change me
Do you understand?
