

## Acid Fuzz

## Toxic Holocaust

Open up the door that closes off your mind  
Lift up the astral veil you know you are so blind  
Shattering perception

You can't trust your eyes  
Melting shapes and blurry vision  
Acid Fuzz consumes  
Becomes your new religion  
Shattering perception

Drowning in infinity  
But never knowing why  
On a plane of consciousness  
The acid gets you high...

Dose me

When a person feels, society reels  
There's no holding back  
Morality is limitation  
You are what I was

You've made the choice  
Now choose your path.
