

Death From Above

Toxic Holocaust

The future's here, the time is now
now it's time to strike (Time to strike)
We'll fight 'em off til the end or we're gonna die (Gonna Die)
Surrender now or pay the price, we're coming after you

Planes are bombing from the skies
and the tanks are pushing through

Waiting - This is the final hour
Hate - We're all gonna die
Destruction - A preplanned commission
Fate - Death is in our hands tonight

Here's the time to take control, now we gotta strike (Gotta strike)
Move ahead, conquer all, we're going out tonight (Out tonight)
Send the troops on the ground and bombers in the sky
Guarantee a violent end attack them by surprise

Waiting - This is the final hour
Hate - We're all gonna die
Destruction - A preplanned commission
Fate - There will be death from above

We'll push past the gates cause we're getting through
Slaughter and maim til our mission is through
Catch them off guard or until we have won
Bombers above, the bloodshed has only begun

On through the night we hear the call
The sirens are sounding as the victims they fall
A battle from Hell fought in the sky
Continue the fire until everyone dies
