

Demise

Toxic Holocaust

See the world collapse
Witness the demise
See the world crumble
Right before your eyes
Apocalyptic nightmare
Has you traumatized
Can hear the demise

Demise
Demise

Earth is a wasteland
The humans wonder why
See the planet rumble
Hear the f*ckin' cries
Holocaust of humans
No one will survive
Every human dies

Demise
Demise

We can't be saved
Screaming from our grave
Can you hear the cries
We won't survive

Nuclear destruction
No one can survive
Earth is a wasteland
You hear the worst cries
Mayhem and havoc
Right before our eyes
As we all die

Demise
Demise

Trapped in this wasteland
The end is coming close
As we all die
This can't get any worse
Running for your life
And hoping that you'll die
Isn't any life so f*ck hope and die
