

March From Hell

Toxic Holocaust

Legions of evil preparing to fight
Kill the holy who come into sight
Axes do battle, march from Hell
Flames of evil attacking with spell

From the ground they rise, through the Earth
Raping the women who worship at church
Under Hell's command, He is death
Beheading the priest as he takes his last... breath

A million more lives, we will take
Collecting your souls, sealing your fate
Haunting the churches as you pray
Erasing your love and filling with hate

Black candles lit, chapels burned
Dancing in ashes, now it's your turn
Evil black legions we will take
Taking what's ours, it's our fate

As we kill and kill and kill and kill... March from Hell
