

Suicide Eye

Toxic Holocaust

Cold and dark they call out to me
Hear the demons summoning me
A human gift self-crucifixion
A sacrifice self-crucifixion

For this cause
I'll end my life
Now step into suicide's eye

Sharp sound it's ripping through
Loud screams are piercing through
Demons chant they call out to me
Scream my name they're living in me

I've lost it all I'm losing control
Demonic forces have taken control
End it all to escape the pain
End it all I cant take the pain
