

## Warfare

## Toxic Holocaust

Flames are gushing  
The world set free  
Nothing will stay  
Nothing be the same  
War is Hell  
Hard on man  
Marching on the warriors  
As missiles crush the ground

Warfare  
Warfare  
Hell from the sky  
You know you're gonna die  
Warfare

Toxic radiation  
The sky's turning black  
Now the Judgement's done  
No one will be back  
Thirst for destruction  
Kills your gun  
Nightmare, holocaust  
The war can't be won

Warfare  
Warfare  
Hell from the sky...

Desolates in Hell  
Destruction ends me  
Nuclear war  
Gone against we  
Genocide of man  
A nuclear battle  
Men of the war  
Summoned like cattle
