

Homebrew

Toxic Narcotic

Corporate Beer that tastes like shit,
profit as they sell you piss
doesn't cost that much at all
to sit at home and brew your own

[Chorus:]
I want homebrew!
Cider lager stout & ale
have a pint, it's not for sale
pride in what you made from scratch
sucking back a fresh brewed batch
I want home brew!

Buying corporate beer is like buying corporate rock
production for consumption that will never stop
we brew it thick and rich, because we're thin & poor
support the independent when we buy it at a store

[Chorus] (..I believe)

Homebrew music
homebrew beer
DIY for life, the situation's clear
to everybody down, I raise my glass & cheer
and have another drink of that homebrewed beer
