

## Irreversible

Toxic Narcotic

But we need to create more  
Oh of course, don't forget to upset the best  
please slay more!  
Kill everything, that's what we need  
How can we repay you  
You've been so kind  
Don't worry about all the shit you've done  
it's only irreversible!

Produce, industry  
Blackened water poisoned sea  
more for you, more for me  
It's only irreversible!  
Another fucking oil spill  
Another fucking forest killed  
How much fucking more until  
It's only irreversible  
All you get - youre blind  
stupid fuck - youre blind  
nothing left - youre blind  
It's only irreversible - Gone!
