

# Heart Attack

Toxik

He is no more  
And he would cease to be  
No more  
No less  
Tell me what's left to see  
He lives for the night  
When he's wearing down  
But when there is light  
He just starts to  
Oh yeah

What does a soul answer on time?  
Down in the void  
Who do you think you are?  
The day  
Trick or trade  
Wastes my money 'n time  
Snap and quick  
This is where we draw the line  
Heart heart heart heart  
Heart attack  
Heart attack stopped in your tracks  
Heart attack  
Heart attack with cardiac  
Heart attack  
Heart attack stopped in your tracks  
Heart attack  
Oh yeah!

His mind is drone  
It will melt down  
But inside  
They seize the crown  
No strings attached  
From the flat-line  
The world is too much  
He can't stand another day

Heart heart heart heart  
Heart attack  
Heart attack stopped in your tracks  
Heart attack  
Heart attack with cardiac  
Heart attack  
Heart attack stopped in your tracks  
Woah yeah

Heart heart heart heart heart attack  
Heart attacks make people die  
Heart attack  
Heart attacks are cardiac  
Heart attack  
Heart attacks make a trap, heart attack, heart attack,  
Heart attack, oh yeah! (heart attack)  
YEAH!
