

## Spontaneous

Toxik

We fought in wars to defend all of our beliefs  
Now people starve in the streets at our feet  
In middle eastern lands war heroes making plans  
We live out roles in their psychotic schemes

These lies are old, it's obvious  
Actions speak louder than words  
And though it seems we're oblivious  
The time is here for us to act before

[Chorus:]

Spontaneous  
Our world burns up in flame  
Spontaneous  
For higher profit gains  
Spontaneous  
The time to act is now  
Spontaneous

They talk retaliation like that might save this nation  
They'll be no more air left to breath - believe  
No second life, no second strike, I had a dream what it was like  
There was a flash and we were gone!

These lies are old, it's obvious  
Actions speak louder than words  
And though it seems we're oblivious  
The time is here for us to act before

[Chorus:]

The path of destruction we're leading the way  
The cancer, the answer, to God we must pray  
Blind leading blind to an unearthly end  
Burned out and beaten no more to defend

These lies are old, it's obvious  
Actions speak louder than words  
And though it seems we're oblivious  
The time is here for us to act before

[Chorus:]
