

## Clap Trap

Toxique

Can I try to call you, cause I feel alone  
inspite of having many friends  
Cause I know you'll help me, while I'm sad  
but be carefull I can be really mad  
I'm so glad that I've met you, that's right  
that's true, cause

You're gonna care bout me  
You're gonna lie for me  
You're gonna cry for me  
I know...

I try to spend a lot of time with myself  
but I know, it's so hard  
Like a flower needs the sun  
I need you, friends and fun  
I've god great family I had a good childhood  
I've never been a latchkey child  
and I know I'll be fine  
if you're with me, cause

You're gonna care bout me  
You're gonna lie for me  
You're gonna cry for me  
I know...
