

Is this Love?

Toxique

I know you're sleepin'
But my eyes are open wide
Somethin' is weepin'
Somewhere in my head inside
Deep inside

Your breath is easy as
That song from Faith No More
It's on the vibe of dreams
and headin' to the core
Into the core

Is this love
That I'm feelin'?
Your hands were cold
And your lips were healin'
Is this love?
As Marley said,
It rained all night
And we both were all wet

Our sun is blind
There are no rays, no mirages
We're on the "boat of night"
And floatin' in the mist
Of the gist

Red rain gets stronger
And your eyes are open wide
And there are two stars
Burstin' up inside my heart
Right inside

Is this love
That I'm feelin'?
Your hands were cold
And your lips were healin'
Is this love?
As Marley said,
It rained all night
And we both were all wet

Don't stop whispering in my ear

This is love
That I'm feelin'
Your hands are warm
And your lips are healin'
This is love As PJ said,
It's raining, love
And we are both all wet
