

Lonely Valentine

Toxique

My lonely Valentine
How do we find our way to tomorrow
My lonely Valentine
How can we share
More than one day how little I know
Little I know about your sorrow
You are my Valentine
Just for this day

Let's think we live just for one more
Let's think we live for one more day
Be who we've never been before
Let's fill our secret lives with
Everlasting joy
Let's live like we don't see our fall

Are we so different?
Can we make our life come closer?
Are we so different?
I wish you'd hold me again
Did you decide you want
To make your soul living in illusion
Don't hide your feelings
I wanna touch you again

Let's think we live just for one more
Let's think we live for one more day
Be who we've never been before
Let's fill our secret lives with
Everlasting joy
Let's live like we don't see our fall
