

Remember

Toxique

Do you remember our walks outside
Walkin hand in hand that's on my mind
Now we're not together do you think it's right
I don't know what's better my mind is not bright

Standin' out in the snow
I felt that glow
Stars were shining in the sky I know
But now I don't feel so wonderful
How I miss you so

Do you remember us talkin' at school
I was so nervous I felt like a fool
Memories still returning to my head
You were the only one turning me red

Standin' out in the snow
I felt that glow
Stars were shining in the sky I know
But now I don't feel so wonderful
How I miss you so

Do you remember our first kissin' in the park
It was a Tuesday, right after dark
Now it's so hard to find that reason
Why we broke up that winter season

Joking, smiling, kissing, smoking
Talking, moaning, sharing our feelings

I miss that joking
I miss that talking
I miss that moaning
Oh, I miss you so
