

So Into You

Toxique

What I do I do for you to be glad that I'm yours I know
I am triing to hide my feelings which I expozed to you

For a while there was nobody to hold my hand
Wlakin' alone I didn't understand
What's up with me and what is wrong
Than I found I'm singing a bitter song

What I do I do for you to be glad that I'm yours I know
I am triing to hide my feelings which I expozed to you

In my mood far away I can see little light
Looking for thought I've lost while raveing last nigh
Let it go let it flow let it leave us alone
That gloomy thought won't let me to be on my own

You are my light
Shining so bright
That's what you are
You are my shining star
You are my hope
My secret dope
That's what you are
You are my heart's desire
You are my light
Shining so bright
That's what you are
You are my angel eye
You are my hope
My secret dope
That's what you are
You are my shining star

What I do I do for you to be glad that I'm yours I know
I am triing to hide my feelings which I expozed to you
