

Do you know what problem is?
It's that I love you so
Yeah, you can help me with this
Just don't say no
You're the reason why I'm sad
Well why you're so far
Hey, I'm not really glad that
You've left in my brand new car

Set me free give me power
Give me love for one hour
The same and shine
Map to my mind
Set me free give me power
Give me love for one hour
Life and soul
Safety in my life's role

What you get is what you get
What I did is what I did
I'm not happy I'm more sad that's it!
I don't know who's right and who's wrong
Do I have to get over it
I don't feel fine happy or strong
There's no need to stand so I'll sit

Set me free give me power
Give me love for one hour
The same and shine
Map to my mind
Set me free give me power
Give me love for one hour
Life and soul
Safety in my life's role
