

Martian Cowboy

Toyah

(Words Willcox / Music Bogen/Darlow/Spalding)

Desert Hound

Martian Cowboy

Let me hold your hand

Down the freeway rolls a wayward beer can

And a desert hound

Carries decaying memories away

For the dogs to sense another day

Hold me in your arms

This planet is far from Mars

Lets just hold hands (for now)

And we'll take it as it comes

Celestial Stowaway

Martian Cowboy

Come again another day

Till then we're just a star away

My Martian Cowboy

Remember today

Hold me in your arms

This planet is far from Mars

Lets just hold hands (for now)

And we'll take it as it comes

Red planet

Sun rise

Red planet

Sun rise

Decaying cars

Splintered tyres

The deserted freeways of Mars

My Martian Cowboy

Hold me in your arms again

I said -

Hold me in your arms

This planet is far from Mars

Lets just hold hands (for now)

And we'll take it as it comes

Red planet

Sun rise

Red planet

Sun rise...
