

Revive The World

Toyah

(Trouble in the engine room)

Take a look at the tree through the window
(Spaceship home)

When it moves, it moves me too
(Maintenance is overworked)

When I breathe, I feel it's leaves
Leaving me to tingle in the cold sun
(Air-conditioning tampered with)

In the dawn of a starless night
I recharge with light and revive the world.

(Can you hear me)

I love her so
I will never never let her go
(Astronaut's report)

In the dawn of a starless night
I recharge with light and revive the world.

Ah-ah-ah-ah
Revive...

I will always be there in support of Earth
(Those among us)
Will we stop this crying, pushing, shoving, dying
(Pull together)
When you move, you move me too
(To serve a purpose)
Rest assured
Those among us will never let her go

In the dawn of a starless night
I recharge with light and revive the world.

(Trouble in the engine room)

She's silently turning
Waiting in timeless space
(Spaceship home)

In the dawn of a starless night
I recharge with light and revive the world.
