

Sensational

Toyah

Hey little wonder, don't cry
We'll be fine, we're gonna fly
We are invincible
We are

Hey little starlight, hey little soul
Hey little girl come rock and roll
Hey little satellite burning bright
God made you to light the night
We are invincible
We are

Hey little star
Look at you, you're so beautiful
Just like this universe
You are sensational
Hey little dreamer look at you
You are so wonderful
Just like a burning supernova
You're sensational

Hey little dreamer, forgotten one
Come with us we're on the run
Hey little wonder, let's fly
Touch skin, watch sky ignite
We are invincible
We are

Hey little star
Look at you, you're so beautiful
Just like this universe
You are sensational
Hey little dreamer look at you
You are so wonderful
Just like a burning supernova
You're sensational
