

## Ride on

Tq

[Verse 1: TQ]

So you think it ain't right  
The way I give mine  
And what you describe  
Well let me tell you like this  
When I didn't have nothing  
There weren't nobody giving me nothing  
So I had to make something happen  
The only way I know how  
Was probably go down  
Cos everybody was singin' and rappin'  
I get my ride on

(Chorus)

Ride on (ride on) with all of my niggas  
So what you hear me say  
Right one, cos it's bout to get bigger  
But I still gotto ride on  
To get up on top  
Cos he told me not to leave it a lot  
That must keep lights on

[Verse 2: TQ]

I was reading in the paper yesterday  
Say they cleaning up the streets around my way  
To many niggas on the corner  
Couldn't make no money if you wanna  
And not one time riding through everyday  
So I'm thinking like  
Things bout to get a whole lot better  
Black 64 with a trunk full of cheddar  
Picture my homies all born in the ghetto  
Khakis with an Iceburg sweater  
Listen to me  
When my mama stop working  
I can stop this shit  
But until that day you gotta deal with this  
I told y'all I'm a stay real with this  
Still make a couple mil with this

(Chorus)

[Lil' Wayne]

Off the top this lil nigga is off the meter  
Warn your people  
Wayne is a walking heater  
Flames all over  
The game''s all over  
I told y'all niggas  
Now your reigns all over  
Listen, don't play with me  
That's cos I strap up quick  
But holla tips  
And glock clips  
And my niggas they don't spray quickly  
Thats cos I kiss my ride on

It time to kill niggas cos the lights on  
Bandana tied on  
Platinum over ice  
Ten I brick the price  
It's raw with no slice  
I'm duckin' blue and whites  
And yellow drive presser  
Guns off my dresser  
Set em on my leather  
See Atrice told me to ride like that  
So I'm a be like that  
Thats how I get come Weezy Wee like that  
I'm from the streets like that  
And on these streets I'm gonna die  
The G-code is what we live by  
Forever ride

(Chorus till fade)
