

# Bring It On

Trace Adkins

Troubled soul, all alone  
I can feel your sadness  
The headache and the madness

Are hittin' hard tonight  
You're cornered up and hunkered down  
The walls are tall around you  
For anyone to break through  
It's gonna be a fight

Bring it on, bring it on  
All your heartache and frustration  
You've been done wrong too long  
And I'm strong enough to change it  
Maybe in time, we'll turn water into wine  
Maybe love is what we'll find  
Bring it on

It's not too late to fly away  
And I won't try to stop you  
So you do what you've got to  
I'll understand  
But if you need a place to land

A haven, safe and certain  
Someone to share your burden  
Then take my hand

Bring it on, bring it on  
All your heartache and frustration  
You've been done wrong too long  
And I'm strong enough to change it  
Maybe in time, we'll turn water into wine  
Maybe love is what we'll find  
Bring it on

Yeah, bring it on baby  
Baby, bring it on  
Bring it on  
Yeah, bring it on
