

Bring It On

Trace Adkins

Troubled soul, all alone
I can feel your sadness
The headache and the madness

Are hittin' hard tonight
You're cornered up and hunkered down
The walls are tall around you
For anyone to break through
It's gonna be a fight

Bring it on, bring it on
All your heartache and frustration
You've been done wrong too long
And I'm strong enough to change it
Maybe in time, we'll turn water into wine
Maybe love is what we'll find
Bring it on

It's not too late to fly away
And I won't try to stop you
So you do what you've got to
I'll understand
But if you need a place to land

A haven, safe and certain
Someone to share your burden
Then take my hand

Bring it on, bring it on
All your heartache and frustration
You've been done wrong too long
And I'm strong enough to change it
Maybe in time, we'll turn water into wine
Maybe love is what we'll find
Bring it on

Yeah, bring it on baby
Baby, bring it on
Bring it on
Yeah, bring it on
