

Come See Me

Trace Adkins

Long day, long week
Baby let me lay you down and get you off your feet
What you waiting for, my heart's an open door
There's nothing, I love more than when you

Come see me
I've got what you need
Baby, come see me

Slow touch, slow kiss
I just wanna take my time and taste you on my lips
And if you need anything, any little thing
Just let me be your everything

Come see me
I've got what you need
Baby, come see me

I wanna love you
Baby let me love you

Come see me
I've got what you need
Come see me
Baby, come see me

Long day, long week
Baby come see me
