## **Days Like This**

## **Trace Adkins**

I can smell that fresh coffee beginnin' to brew From the swing on this deck with a heck of a view Of the sun burnin' steam off the lake and the dew off the groun d

The weatherman's callin' for clear as can be And I believe that he's right 'Cause my stubborn left knee is feelin' awful dang good And that's just what I'm needin' right now

So don't bring me the paper, don't turn on the news If it'll fire me up, keep it away from my fuse If the world's goin' to hell, let it go, I'll just blow it a ki ss Don't wanna think about things like that On days like this

Some days are just made for a big change of plans So bring me your body and baby let's dance You're all that I want on my mind and my hands right now Right now baby

So don't bring me the paper, don't turn on the news If it'll fire me up, keep it away from my fuse If the world's gone to hell, let it go, I'll blow it a kiss Don't wanna think about things like that On days like this

No don't bring me the paper, don't turn on the news If it'll fire me up, keep it away from my fuse If the world's gone to hell, let it go, I'll blow it a kiss Don't wanna think about things like that On days like this

Days like this Not today baby
