

# Million Dollar View

Trace Adkins

I don't need to be sittin' on the roof  
Of a high-rise lookin' at the city below  
I don't need to be on the beach  
Watchin' that sun sink in the Gulf of Mexico  
If I climb to the top of a Colorado mountain  
I could see forever from there  
But I don't have to go anywhere

I've got a million dollar view  
Right here in my livin' room  
In this little tin roof house  
Even with the shades pulled down  
And the lights turned out  
I don't need to go to some exotic place  
To see the kinda thing that takes my breath away  
No, all I gotta do is look at you  
And I've got a million dollar view

When I see you layin' there in that sexy nightgown  
It burns me down deep in my soul  
You're a livin' work of art  
A sight that would inspire the likes of Michelangelo  
If I took a telescope and pointed it to heaven  
I wouldn't find nothin' up there  
That compares to what I got right here

I've got a million dollar view  
Right here in my livin' room  
In this little tin roof house  
Even with the shades pulled down  
And the lights turned out  
I don't need to go to some exotic place  
To see the kinda thing that takes my breath away  
No, all I gotta do is look at you  
And I've got a million dollar view

I don't need to go to some exotic place  
To see the kind of thing that takes my breath away  
No, all I gotta do is look at you  
You know the truth is, I don't know if a million would get it

You're my million dollar view  
Yeah just lookin' at you  
You're my million dollar view
