

# Ride

Trace Adkins

Take a trip from here

Bogalusa, Baton Rouge  
New Orleans, Picayune  
Boloxi, Pascagoula  
Mobile Bay, Big full moon  
Diesel up just north of Destin  
Headed cross to Jacksonville  
Love to see the world come at me  
Through the bugs  
On a big windshield  
Yeah, that's right

Tear it down in Raleigh-Durham  
Haven't got an hour to lose  
Head up to the coast to Virginia  
Read the newest Newport News  
Back across the Appalachians  
Blowin' into Louisville  
Love to feel the big wheels turnin'  
Always have and always will

Somewhere inside me  
There's a new direction  
Somewhere before me  
There's an open road  
Can't go to sleep  
Without that diesel singin'  
Somebody tellin' me  
It's time to go  
Let's ride  
Come on boys, let's ride  
Come on boys, let's ride

Little Rock, Texarkana,  
Dallas, Fort-Worth and El Paso  
A hundred and ten in the desert  
Pedal down  
Go dog go  
Always love to see the people  
Always love to hear the crowd  
Always love to bring a party  
Turn it up and play it loud

Somewhere inside me  
There's a new direction  
Somewhere before me  
There's an open road  
Can't go to sleep  
Without that diesel singin'  
Somebody tellin' me  
It's time to go  
Let's ride  
Come on boys, let's ride

Let's ride like the wind  
I'll be back again

As sure as this world's spins around  
One day I might find a reason  
To shut this thing down  
But for now  
Let's ride

Somewhere inside me  
There's a new direction  
Somewhere before me  
There's an open road  
Can't go to sleep  
Without that diesel singin'  
Somebody tellin' me  
Tell me, it's time to go  
Let's ride  
Come on boys, let's ride  
Come on boys, let's ride  
Yeah  
Let's ride
