

Them Lips (On Mine)

Trace Adkins

Why you talkin' with 'em baby
How come they're sippin' on ice cold beer
Why you rubbin' Maybelline on 'em, when
You should be puttin' them lips right here
Them lips, right here
You should be puttin' them lips right here

They look lonely and need some kissin'
So why you sittin' way over there
Bring 'em on over, you got my permission baby
To get to puttin' them lips right here
Them lips, right here
Best get to puttin' them lips right here

On mine, on mine
Any other thing you're thinking 'bout doing tonight, tonight
Wouldn't be nothing but a waste of time for them lips

Yeah we could have a short conversation
Find things in common that we both share
But baby that's just procrastination
Cut to the chase and put your lips right here

On mine, on mine
Any other thing you're thinking 'bout doing tonight, tonight
Wouldn't be nothing but a waste of time

Just so there's no misunderstanding
I wanna make this crystal clear
You see this big smile smiling back at you babe
Well I want you to put your lips right here
Them lips right here
I want you to put your lips right here
Them lips go right here baby
I want you to put your lips right here
Put them here
