Raise The Roof

Tracey Thorn

What you do Raise the roof Everybody Wants you to And you do it with And you do it with And you do it with And you do it with, love When you do That thing you do Love comes through You raise the roof Put the music on Put the music on Put the music on They all wanna dance Can do anything If you dare Don't mean a thing Unless you care And you do it with And you do it with And you do it with And you do it with, love All those years I wasted Sitting on my own Think what I could have tasted If I'd only known Why did I wait Why did I wait Don't tell me it's too late Why did I wait Don't tell me it's too late So open up Before you start Open hand Open heart Bring it on Bring it on Bring it on, home Bring it on, home

```
Why did I wait
Why did I wait
Don't tell me it's too late
```
